## **USER'S INFORMATION MANUAL**

## A Few Words About Safety

Your safety, and the safety of others, is very important. And using this accessory safely is an important responsibility.

To help you make informed decisions about safety, we have provided operating procedures and other information on labels in the vehicle owner's manual, and in this manual. This information alerts you to potential hazards that could hurt you or others.

Of course, it is not practical or possible to warn you about all the hazards associated with operating or maintaining your vehicle. You must use your own good judgement.

You will find this important safety information in a variety of forms, including:

- **Safety Messages** – preceded by a safety alert symbol  and one of three signal words: **DANGER**, **WARNING** or **CAUTION**. These signal words mean:

 **DANGER**

You **WILL** be **KILLED** or **SERIOUSLY HURT** if you don't follow instructions.

 **WARNING**

You **CAN** be **KILLED** or **SERIOUSLY HURT** if you don't follow instructions.

 **CAUTION**

You **CAN** be **HURT** if you don't follow instructions.

As you read this manual, you will find information that is intended to help you avoid damage to your vehicle, other property, or the environment.

- **Instructions** – how to use this system correctly and safely.

This manual contains important safety information – please read it carefully.
