Right running board

Left running board

12 Flange bolts

TOOLS AND SUPPLIES REQUIRED

Ratchet
12 mm Socket
Torque wrench
Utility knife

INSTALLATION

Client Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by "do-it-yourselfers."

NOTE:

- Thoroughly clean the bottom of the body between the front and rear wheels.
- Be careful not to damage the body paint finish.
- These instructions show the left side running board being installed; the same procedure applies to installing the right running board.

1. Locate the three presets in the left side sill panel. Using a utility knife, cut out the left side sill panel at each preset.

- Loosely install the left running board to the vehicle panel with six flange bolts.

QB02902AK

- Torque the six flange bolts in the order shown to 27 N·m (2.8 kgf·m, 20 lbf·ft).

QB02903AK

- Repeat steps 1 through 3 to install the right running board on the right side of the vehicle.
