

INSTALLATION INSTRUCTIONS REAR LICENSE PLATE FRAME

Applicable Models:
Mitsubishi Motors Vehicles - Rear

Package Contents

- 1 License Plate Frame
- 1 Hardware Hider Kit

Tool Required

Phillips Head
Screwdriver

Before Installation

- When mounting this new license plate frame, please use the Mitsubishi license plate mounting hardware that came new with the vehicle. Should your vehicle require license plate mounting hardware, contact your local Mitsubishi Motors Parts Department for the correct mounting hardware for your year and model.
- Area to be covered by plate and frame must be clean. It is recommended that you wash and wax this mounting area prior to installation.

1 Install License Plate Frame

- (Referring to diagram 1-1) Peel off the paper mask from the backside of the spacer. Align the spacer hole to the mounting hole of the license plate and stick to the plate. Use 2 spacers when additional frame clearance is necessary.
- (Referring to diagram 1-2) Insert the license plate completely into the frame. Install a snap washer to each screw with the washer collar surrounding the head of the screw. Secure the frame/plate to the vehicle by firmly tightening the screws - **Do Not Over-tighten**. Attach a hider cap to each snap washer.

2 After Installation and Care Instructions

- Check the license plate frame to make sure it is held firmly in place.
- Frequent washing of license plate frame with mild soap and water is recommended. Always dry with a soft towel, preferably terry cloth. **Do not use steel wool, soap pads, or any other harsh detergents, solvents or degreasers.** Waxing and polishing the license plate frame is not required with frequent washings.

FRONT SIDE OF LICENSE PLATE

Most state motor vehicle regulations do not permit the covering of license plate characters. Do not use a Mitsubishi Motors name style frame if it covers such wording as the registration category (e.g., commercial, manufacturer, new car dealer), the name of the state, or a registration sticker. Check with local law enforcement if uncertain. When in doubt, please use Mitsubishi Motors slimline style frames with these plates of concern, as noted below.

• Polished Slimline Frame Part # MZ313525
